XUZHOU HM CO.,LTD

COMPANY PROFILE

Xuzhou HM Machinery (XZHM) is a pioneer in China's construction machinery parts industry, as well as a globally competitive enterprise in the field of construction machinery parts. As a leading manufacturer and supplier of machinery parts, XZHM has always been committed to providing customers with efficient, accurate and integrated solutions. Our parts business covers road construction machinery, mining machinery, hoisting machinery, excavating machinery. The main brands that we serve and supply include XCMG, SANY, SDLG, LIUGONG, VOLVO, CAT, Komatsu and other international brands.

Our main products focus on wear resistant parts, undercarriage parts and GET parts. We have OEM wear resistant blade and attachments factory. The products have been exported to more than a dozen countries and regions. Our product series are as follows:

Wear Resistant Parts Series: Motor grader blades, bulldozer blades, loader blades, angle plates, excavator bucket teeth, loader bucket teeth, side teeth and other products.

Undercarriage Series: Track rollers, Track carriers, Idlers, Drive sprockets, Track shoes, Track link, Track Chains, Travel Reducer, Track transfer equipment etc.

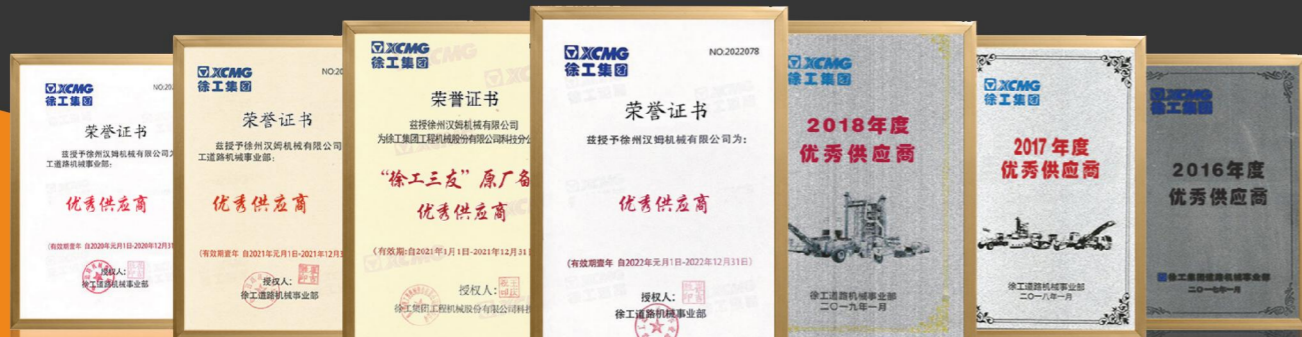

Machinery Attachments Series: Excavator buckets, Loader buckets, Rippers, Forks etc.

Other Products Series: Hydraulic pumps, drive motors, hydraulic cylinders, hydraulic valves.

QUALIFICATION CERTIFICATE

Our OEM factory has the first intelligent production line for wear resistant blade plates in China, and uses the best wear-resistant steel to ensure the reliability and stability of the products.

EQUIPMENT PRODUCTION

We cooperate with China top class undercarriage OEM factory. The factory specializes in manufacturing track rollers, Carrier Roller, track chains, sprocket, track shoes and tensioning assemblies. The product is supplied directly to international and domestic construction machinery manufacturers.

GROUND ENGAGING TOOLS

EXCAVATOR FITTINGS

XZHM manufactures an extensive range of excavator GET Parts & Components , products for manufacturers like XCMG, Caterpillar, SDLG, SANY, Liugong, Hyundai, Komatsu and more. Manufactured to the highest quality standards, XZHM GET parts have earned an excellent reputation in the Mining, Construction and Roadbuilding industries for providing long life and trouble-free performance.

LOADER FITTINGS

XZHM manufactures Tooth and Blade products for wheel loader, products for manufacturers like XCMG, SDLG, SANY, Liugong, Lonking, Komatsu and more. Manufactured to the highest quality standards, XZHM loader parts have earned an excellent reputation in the Mining, Construction and Roadbuilding industries for providing long life and trouble-free performance.

BULLDOZER FITTINGS

XZHM manufactures an extensive range of dozers GET Parts & Components , products for manufacturers like Shantui, Caterpillar, HBXG, Liugong, Pengpu, Komatsu and more. Manufactured to the highest quality standards, XZHM dozer GET parts have earned an excellent reputation in the Mining, Construction and Roadbuilding industries for providing long life and trouble-free performance.

GRADER FITTINGS

XZHM manufactures motor grader blades and rippers, products for manufacturers like XCMG, Liugong, Sany, SDLG, Caterpillar and more. Manufactured to the highest quality standards, XZHM grader blade parts have earned an excellent reputation in the Mining, Construction and Roadbuilding industries for providing long life and trouble-free performance.

WEAR RESISTANT TOOLS

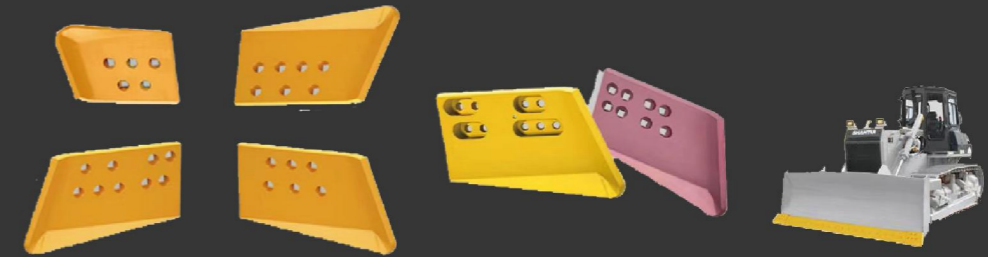

LOADER CUTTING EDGE AND BLADE PLATES

COMMON STEEL GRADES	THICKNESS/MM	HARDNESS
27MNTIB	≤60	≥460
NM400	<60	≥360
	60 ~ 120	≥360
NM500	<60	≥460

OEM according to customer requirements

DOZER END BITS AND BLADES

COMMON STEEL GRADES	THICKNESS/MM	HARDNESS
27MNTIB	≤60	≥460
	<60	≥360
NM400	60-120	≥360

OEM according to customer requirements

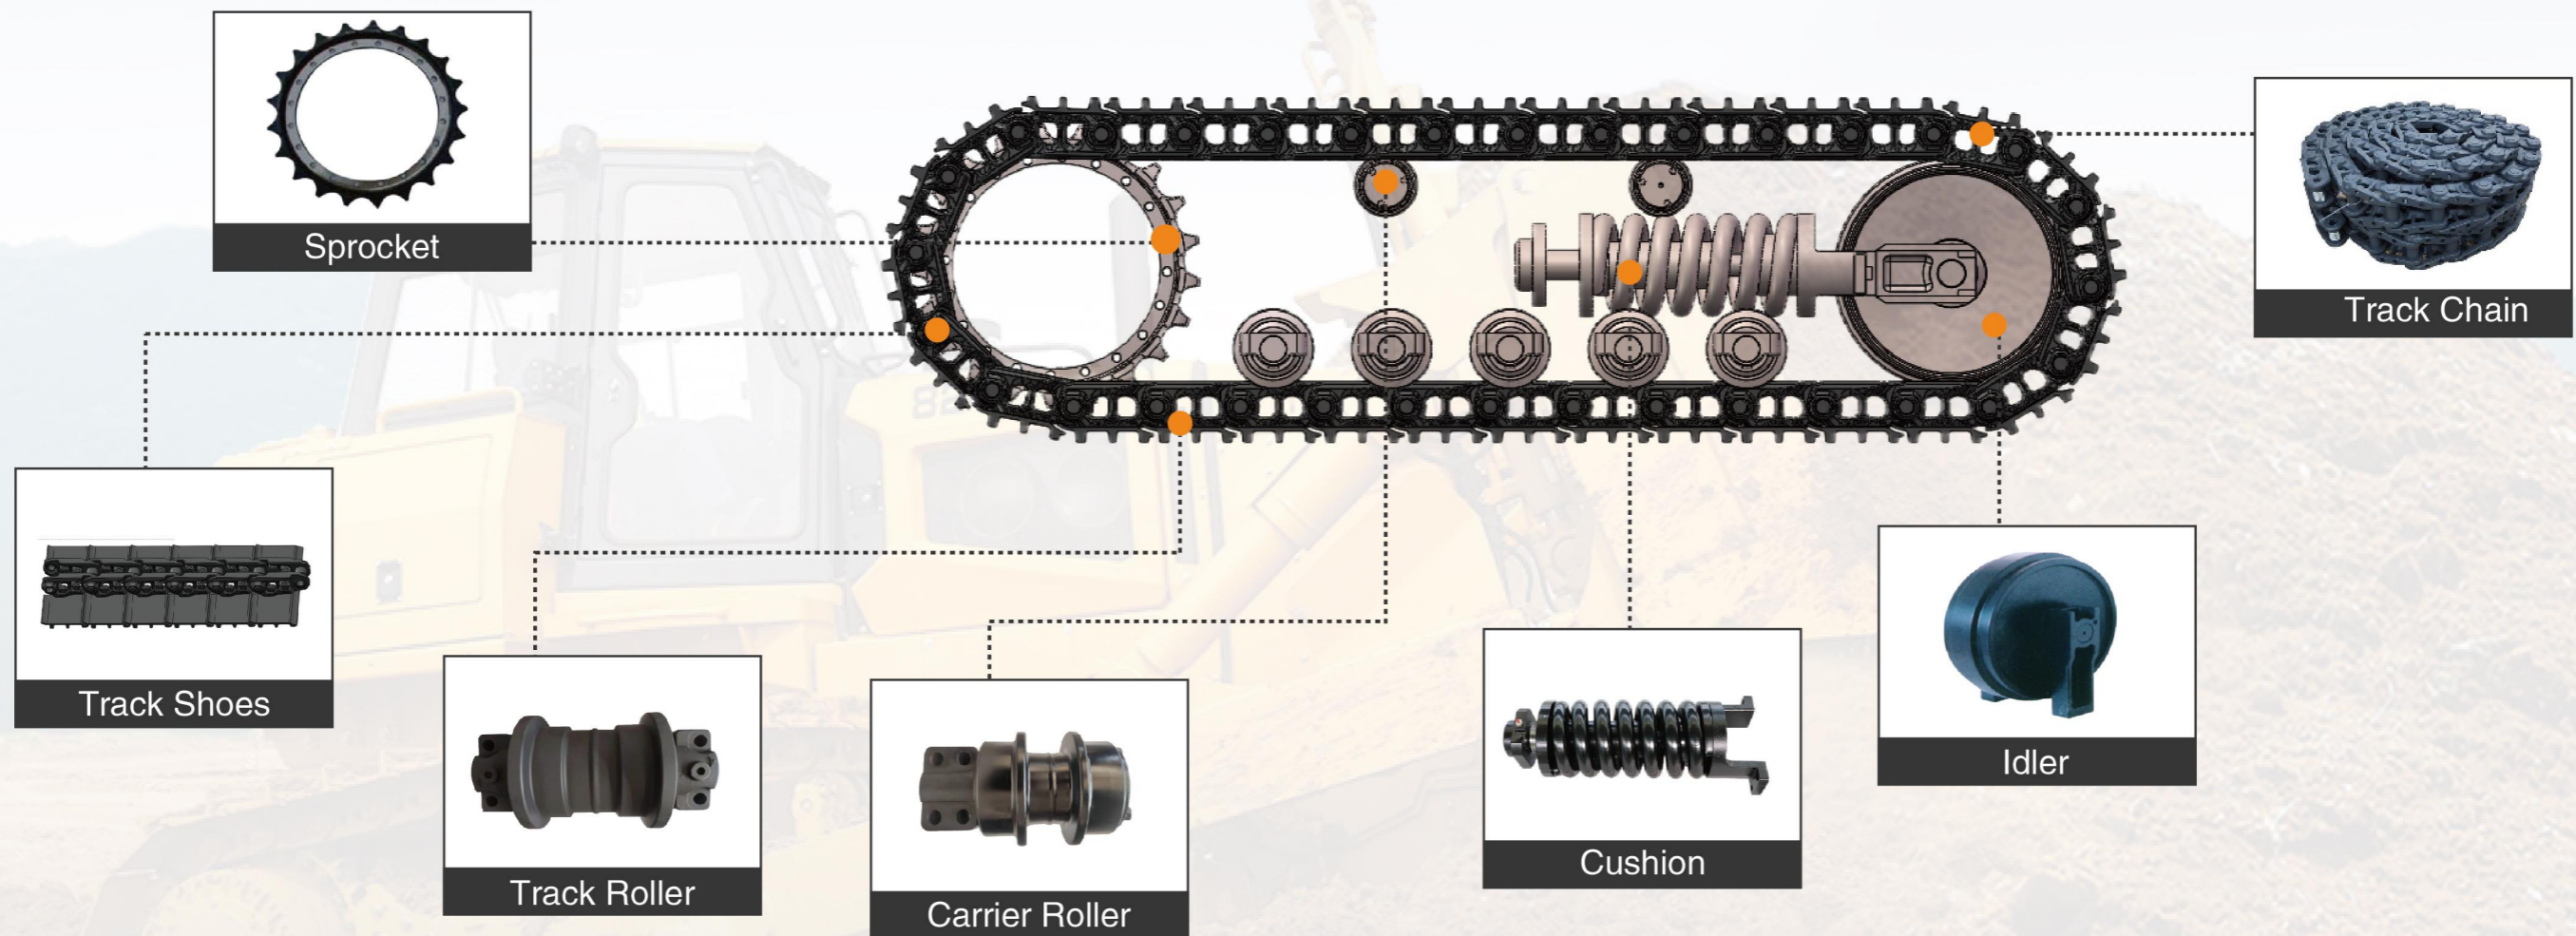

MOTOR GRADER BLADE PLATES

COMMON STEEL GRADES	THICKNESS/MM	HARDNESS
HB250	16\19\25	≥220
27MNTIB	16\19\25	≥460

OEM according to customer requirements

UNDERCARRIAGE PARTS

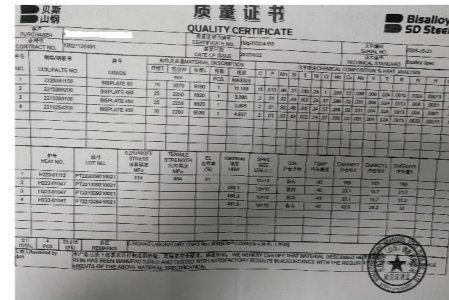

XZHM supplies track shoes, track rollers and carriers, idlers, sprockets, chains, cushion and structural components to major domestic and international construction machinery brands. XZHM has long been cooperating with China's top OEM factories to produce undercarriage components. Currently, we have successfully developed undercarriage parts for international brands such as XCMG, SANY, Shantui, SDLG, Liugong, Komatsu, Hyundai, Doosan, and Caterpillar. The products are sold in more than twenty countries and regions.

ATTACHMENTS

MATERIAL OPTIONS

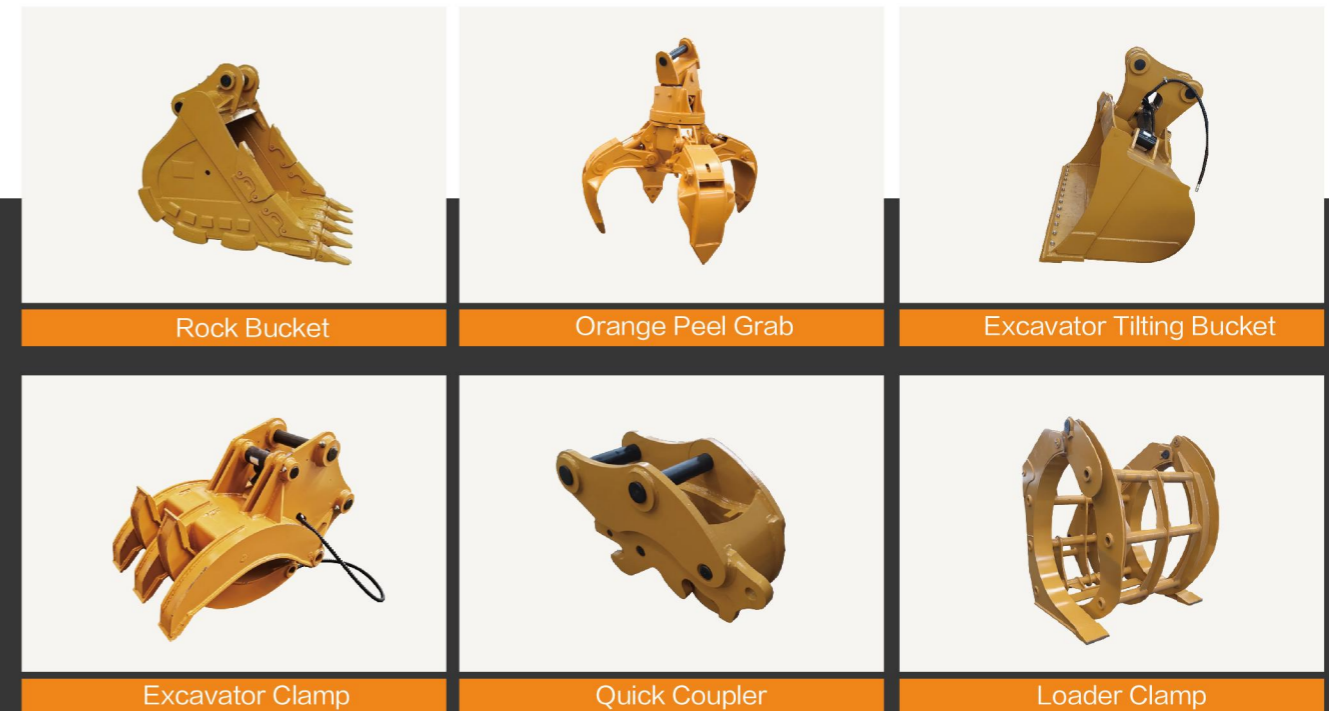

Various material can be chosen: For material Q355, wear-resistant plate NM400 and imported Hardox plate for customers to choose. We can customize various materials according to the customer's requirements and products are suitable for various types of working conditions, such as in mines or extremely cold regions.

Material	Code	Main Chemical Components					Brunel Hardox (HB)	Elongation (%)	Tensile Strength (N/mm ²)	Yield Strength (N/mm ²)
		C	SI	MN	P	S				
Manganese steel Made in China	Q235	0.14	0.3	0.35	0.045	0.05	78	26	375-500	235
	Q355	0.18	0.55	1.4	0.03	0.03	163-187	21	470-660	345
	Q460	0.22	0.55	1-1.7	0.03	0.03	460	17	550-720	460
Wear-resistant steel Made in China	NM360	0.2	0.3	1.3	0.02	0.06	360	16	1200	1020
	NM400	0.25	0.7	1.6	0.025	0.01	360-420	17.5	1000	800
	NM500	0.23	0.22	0.55	0.013	0.006	495-510	9.5-14	1550	1380
High strength wear-resistant steel	HARDOX500	0.2	0.7	1.7	0.025	0.01	470-500	8	1550	1300

WELDING PROCESS

XZHM has been dedicated to the sales, research and manufacturing of mining machinery and construction equipment attachments 15 years. XZHM mainly sells and produces a full range of buckets that are compatible with earth-moving and stone-digging machinery, as well as various special-purpose attachments such as quick connectors, inclined buckets, wood-grabbing devices, soil loosening devices, and bucket rods. The company has an OEM processing factory and advanced mechanical processing equipment to ensure products reliability.

CONSTRUCTION CASE

Our products and parts are used in large-scale construction projects all over the world, various mines, municipal construction and other fields. Our parts can also be applied in extremely cold regions. The durability and reliability of our products have received high praise from customers. We are committed to providing timely and accurate component solutions to customers worldwide.

MAIN CUSTOMERS

XZHM has established long-term cooperative relationships with leading domestic and international construction machinery brands. Currently, it serves as a supporting supplier to XCMG, SANY, SDLG, VOLVO, LIUGONG. We also supply aftermarket parts for Komatsu, Hyundai and Caterpillar. XZHM been awarded the first class "Quality Supplier and dealer" by XCMG, a leading domestic construction machinery group.
